

## **Child, Adolescent and Family Psychology Boronia / Ferntree Gully**

**At our Psychology Clinic, clients are provided with the support and assistance required to make lasting changes.**

*Located in a quiet setting in Boronia, Lead The Way's Psychology Clinic offers counselling and psychotherapy for school-aged children, adolescents, adults and families.*

### **Psychology Clinic**

With a range of skills and treatment modalities available to clients, our psychologists are equipped to work with a wide variety of issues, from relationship difficulties to school problems and mental health concerns.

Our psychologists are registered with AHPRA (PBA) the national regulatory body for Psychologists, and hold memberships of the Australian Psychological Society. We offer a range of evidence based treatments tailored to suit the needs of our clients, including the Medicare approved treatments of CBT, and interpersonal therapy.

Flexible options are available, including after hours appointments and outreach to schools where appropriate. Medicare rebates are available (with a Doctor's referral) and private health insurance rebates may apply. Funding options through EMM/ATAPS are also available. Reduced rates apply for pensioners and health care card holders.

### **Introducing the new Low Cost Clinic!**

We are excited to introduce a brand new service in 2016. As part of Lead the Way's training services, we will be supervising Registered Provisional Psychologists and psychology student interns to run a new low cost counselling service. Clients will be able to access professional counselling at very reasonable rates, without the need for ongoing Mental Health Care Plans or concerns about Medicare funding shortfalls. Please see our attached brochures for more information.

**For more information, or to make a referral, please phone the Clinic on 9761 0973**
