family violence service

Step Forward

A family violence support group, helping women to build hope and strength for a safer future.

About

Step Forward is for women who have experienced family violence and are feeling confused, alone and overwhelmed. We offer a safe space to take time out, share your experiences and create strategies with other women in similar circumstances. The program is facilitated by **Specialist Family Violence Practitioners**.

We welcome participants of all ages and backgrounds to join us in our sessions where we share and learn strategies with women who have had similar experiences.

“Hearing other people, makes you stronger, so you never return back, and that maybe you made the right choice.”

PARTICIPANT
